3:30 p.m.	Student Success Platform/Joseph McCarthy
3:45 p.m.	Networking Reception Lower Lounge/Sponsored by PeopleGrove

Keynote Speaker: Helen Stubbs
Senior Consultant, Gallup

Helen Stubbs supports efforts to measure and improve the lives of college and university students, alumni, faculty and staff. This research focuses on meaningful measures of success to examine how college can best prepare students for fulfilling careers and a life well lived. Gallup's research has identified crucial undergraduate experiences that align with student well-being and engagement, as well as long-term "life" well-being and professional outcomes. In her role at Gallup, Ms. Stubbs partners with university clients to improve performance on these measures. She received a bachelor's degree in psychology from the University of Vermont and earned a master's degree from the Harvard T.H. Chan School of Public Health.
